

# **SAMPLE**

# **Training Props**

- These training props are provided as examples of props used by local fire departments to deliver hands-on training.

**PART V**

# DIVISION OF TRAINING

The training materials and props presented in this program have been gathered from a variety of sources. If your fire department is not included in this material and you would like it to be, submit your pictures or power point presentation for the next edition.

Firefighters prepare to enter a room to conduct search and rescue operations. Face pieces are occluded in two manners. Firefighter on left has insert inside mask. Firefighters on right have cover over face piece on outside. Huge part of the room search drill for the recruit is to become comfortable operating in the blind.

- Use several standard banquet tables to create a restricted space for firefighters to have to crawl under.
- Use hoseline to provide guidance to searching firefighters.

**Rescue**

A photograph of three firefighters in full protective gear, including helmets and masks, standing in a snowy outdoor environment. They are positioned in front of a tan building with a corrugated metal roof. A red car and a blue car are parked nearby, both covered in snow. The scene is set in winter, with snow on the ground and rooftops. The text "MASK", "CONFIDENCE", "&", and "COMPETENCY" is overlaid on the image in large, bold, black letters with a blue outline.

**FUN**

Special

Hazards

Obtain permission to use a local gymnasium for search and rescue drills. Use dressing rooms and ancillary rooms for drills as well. IF the gym has white walls make sure your firefighters have new gloves to prevent marking walls.
